

Your Child Is Captive To PsychoBabble!

Positive Behavior Intervention and Supports, **PBIS**, Multi-Tiered System of Supports, **MTSS**, Response to Interventions, **RTI**, Specialized Instructional Support Services, **SISS**, and Early Intervening Services, **EIS**, are all packed into current ESEA legislation. THESE PSYCHOLOGICAL TECHNIQUES ARE IMPLEMENTED ON **ALL** CHILDREN WITHOUT PARENTAL KNOWLEDGE OR CONSENT. This **PSYCHOBABBLE** MUST BE STOPPED.

The **Promise Neighborhoods** and **School Based Mental Health Clinics** are being codified in ESEA legislation where the expansion of psychologists, psychiatrists, social workers, and specialized support teams will screen, diagnose, and arbitrarily initiate these interventions on your child.

The Reauthorization of Elementary and Secondary Education Act, ESEA, expands Title I and uses Special Ed (IDEA) to target your child. The current legislation in the Senate and House passed their own versions and are ready to combine their efforts into a grand compromise that is "Bipartisan"(not) this fall. The Republicans and Democrats want the same thing where **ObamaCare** will be expanded age 0 to 21 years old. **MEDICAID** will be used to bill for these psych services which will place coding called **DSM CODES** (Diagnostic and Statistical Manual of Mental Disorders) on your children's records. These codes are used for billing mental health problems in **MEDICAID** which will have deleterious effects on the future of your children. This is the old **HillaryCare** that was defeated in the 90's and now pushed through **ObamaCare**.

**STOP THE PSYCHOBABBLE.
STOP ESEA!**
