Definition: Disease Mongering- According to an issue briefing from European Parliament issued in 2012, *"Disease mongering is a pejorative term for the practice of widening the diagnostic boundaries of illnesses, and promoting public awareness of such, in order to expand the markets for those who sell and deliver treatments, which may include pharmaceutical companies, physicians, and other professional or consumer organizations."*

<p>Disease Mongering</p>	<p>Lessons on emotions, and emotional assessments appear to pathologize perfectly normal emotions.</p> <p>Second Grade-Teacher dashboard>lessons Second grade>Mental Health and Wellness>Strong feelings.</p> <p>Appears to pathologize feelings. Goes into what they are, and then has a song- “Breathing calms me down” that according to the lesson guide deals with “coping” with strong feelings.</p> <p>Nothing wrong with having ways to calm down, but feelings are normal, and should not be portrayed as</p>	<p>Teacher’s Guide: https://lb-live-v1.s3.amazonaws.com/media/teks_co_rrelation/a7a24c8e39ebbd091f0d2ee_a10b0ef5.pdf?AWSAccessKeyId=AKIAI2HEND2V3LGSQWQA&Expires=1635909312&Signature=dodMZj%2Baxm9uVjhiQ8b8ki%2FAluU%3D</p> <p>Page 32- Emotional health is introduced.</p> <p>Our position: Feelings are not a disease. Introducing the idea that positive or negative feelings are a disorder simply spreads the diagnostic net.</p> <p>Lessons: What is Mental Health? Slide 1.6</p> <p>Give’s concept of being emotionally healthy. https://lb-live-v1.s3.amazonaws.com/media/teks_co_rrelation/a7a24c8e39ebbd091f0d2ee_a10b0ef5.pdf?AWSAccessKeyId=AKIAI2HEND2V3LGSQWQA&Expires=1635909312&Signature=dodMZj%2Baxm9uVjhiQ8b8ki%2FAluU%3D</p> <p>Does this mean that some people are emotionally sick?</p> <p>Slide 1.36 characteristics of emotionally healthy people.</p> <p>Managing Mental and Emotional Disorders</p>	<p>Students assess themselves on Social, Emotional and Spiritual Wellbeing. http://courses.humankinetics.com/teks/tg/docs/ch01/SAW_01_01.docx?csrc=3489076145027611053</p> <p>Once again, social and emotional health implies that there could be social and emotional illness, therefore spreading the diagnostic net. Students also assess their spiritual wellbeing. http://courses.humankinetics.com/teks/tg/docs/ch01/SAW_01_01.docx?csrc=3489076145027611053</p> <p>Schools should not be in the business of assessing or addressing spiritual wellbeing. This is the province of religion. Psychiatry and psychology are not about the soul.</p>	<p>GW Middle School</p> <p>Student Handouts- Lesson 6.2, Activity H. Has student name “pro’s and barriers to getting professional help.” Not risks and benefits, not pro’s and cons, but pro’s and barriers. https://www.g-wonlinetextbooks.com/texas-health-skills-middle-school-workbook-2023/~Attachments/ch06/ch06h.docx</p> <p>GW High School Handouts Lesson 7.2- Medical record profiles- Has the student discover providers and where one could access mental health care in their community. https://www.g-wonlinetextbooks.com/texas-health-skills-high-school-handouts-2023/~Attachments/ch07/ch07_casestudy.docx</p> <p>High school Workbook: Lesson 4.4, Activity G:</p>
---------------------------------	--	---	---	---

	<p>healthy or unhealthy.</p> <p>Emotional Check-in.</p> <p>Third Grade seems to be about feelings and coping strategies.</p> <p>When I feel Anger seems to treat anger as a pathology.</p> <p>Grade 4:</p> <p>Managing Overwhelming Emotions.</p> <p>Anxious feelings addressed.</p> <p>Grade 5:</p> <p>Reaching out for help. Video: Reach Out for Help, Feel the Sunshine.</p> <p>Warning Signs.</p> <p>When to reach out</p>	<p>LessonBee Unit on Mental Health Disorders.</p> <p>Slide 1.26</p> <p>Raises the issue of trauma. This has been a popular issue over the past several years, but are we simply casting a wider diagnostic net?</p> <p>Slide 1.54 Feeling upset years after trauma is a sign you may never recover from it.</p>		<p>Assess your Emotional Intelligence and set a goal. https://www.g-wonlinetextbooks.com/texas-health-skills-high-school-workbook-2023/~~Attachments/ch04/ch04g.docx</p> <p>Emotional issues, to our knowledge, are not a disease or a disorder. Therefore, our position is that widening the diagnostic net fits the definition of disease mongering.</p> <p>In our view, this not only has the student do yet another self-assessment, but also has the student set a goal for improving their Emotional Intelligence, thereby implying that low emotional intelligence is a bad thing. Thereby, pathologizing it.</p> <p>High School Health Unit 4, Know your Health and Wellness Skills quiz- <i>“When I notice an emotion, I try to figure out its cause instead of ignoring it”</i> https://www.g-wonlinetextbooks.com/texas-health-skills-high-school/116</p>
